Senior Full Stack Developer with over 5 years of experience in designing and building scalable, high-performance web applications. Specialized in JavaScript/TypeScript and the React, Next.js, and Node.js ecosystems. I have led and delivered end-to-end solutions for complex projects, from initial architecture to production deployment in cloud environments (AWS).

Known for strong analytical thinking, attention to detail, and a focus on building efficient, maintainable, and technically sound solutions. I'm seeking new challenges in remote environments where I can continue to grow, collaborate in agile teams, and contribute to the development of innovative products.
